

Tennessee Crop Weather

Tennessee Field Office • PO Box 41505 • Nashville, TN 37204 • (615) 781-5300 • www.nass.usda.gov

Issued Monday 3:00 PM; October 23, 2017

For the Week Ending October 22, 2017

CROP YIELDS PROMISING; CORN HARVEST WRAPPING UP

Corn harvest was wrapping up and soybean and cotton harvest made strong progress after the previous week’s rains. There is a positive yield outlook for all crops. There was also strong wheat seeding progress. There were 6.1 days suitable for field work. Topsoil moisture was 6 percent very short, 20 percent short, 73 percent adequate, and 1 percent surplus. Subsoil moisture was 6 percent very short, 19 percent short, 73 percent adequate and 2 percent surplus.

CROP PROGRESS					CONDITION					
Crop	This Week	Last Week	2016	5 Year Avg.	Item	Very Poor	Poor	Fair	Good	Excellent
Percent					Percent					
Corn - Mature	100	99	100	100	Soybeans	0	1	12	55	32
Corn - Harvested	95	91	98	91	Cotton	0	2	9	66	23
Soybeans – Dropping Leaves	97	90	95	92	Corn	1	2	10	44	43

Cotton – Bolls Opening	100	98	99	93						
Cotton - Harvested	56	39	59	39						
Winter Wheat – Planted	41	29	55	36						
Winter Wheat - Emerged	14	8	18	13						

County Agent Comments

The farmers in Fayette County have been busy harvesting their corn, soybeans and cotton. We have finished corn harvest and yields for all crops are great!!!!
Jeff Via, Fayette County

Sunshine and dry weather provided excellent harvest conditions and corn harvest is all but a wrap for this year. Producers made very good progress in harvesting soybeans and wheat seeding took a big jump this week. Good to excellent yields in corn and soybeans are being reported.
Jeff Lannom, Weakley County

Soybean harvest is underway but we usually can't get in the field until after lunch because of heavy dews keeping the moisture up. Most of our hay is harvested and we are planting some winter annuals.
Larry Moorehead, Moore County

Plenty to do during a good weather week. Good week for crop harvest. Corn and soybean producers reporting good yields. Most cattle producers report more than adequate hay stocks going into fall. Silage producers have been harvesting forage sorghum and report very good yield. Lots of farmers are trying to get fall lime spread.
A. Ruth Correll, Wilson County

A cold front brought approximately 0.5 inch of rain at the beginning of the week. Producers finished up with corn, concentrating on soybeans. Cotton harvest in full swing. Wheat producers preparing fields for planting. Temperatures remaining seasonable to above normal.
Ed Burns, Franklin County

1/2 inch of rain this week. Corn harvest nearly complete. Soybeans being harvested all week. A few farmers feeding beef cattle hay already.
John Goddard, Loudon County

Some late corn yet to be harvested. Soybean harvest is gaining momentum. Late hay harvest is being wrapped up.
John Wilson, Blount County
